scalar

scalar
id (bigint)
scenario id (bigint)
region (array(text))
year (int)
input energy vector (text)
output energy vector (text)
parameter name (text)
technology (text)
technology type (text)
value (decimal/float)
unit (text)
tags (json)
method (json)
source (text)
comment (text)

scenario

scenario
id (bigint)
scenario (text)
region (json)
year (int)
source (text)
comment (text)

timeseries

timeseries
id (bigint)
scenario id (bigint)
region (array(text))
input energy vector (text)
output energy vector (text)
parameter name (text)
technology (text)
technology type (text)
timeindex start (timestamp)
timeindex stop (timestamp)
timeindex resolution (intervall)
series (array(decimal/float))
unit (text)
tags (json)
method (json)
source (text)
comment (text)

Relationships:
- scenario 0..N — 1 scalar
- scenario 0..N — 1 timeseries
